## **Regulation of the [city/town] Board of Health Restricting the Sale of Tobacco Products**

### **A. Statement of Purpose:**

Whereas there exists conclusive evidence that tobacco smoking causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose and throat<sup>1</sup>;

Whereas the U.S. Department of Health and Human Services has concluded that nicotine is as addictive as cocaine or heroin<sup>2</sup> and the Surgeon General found that nicotine exposure during adolescence, a critical window for brain development, may have lasting adverse consequences for brain development,<sup>3</sup> and that it is addiction to nicotine that keeps youth smoking past adolescence<sup>4</sup>;

Whereas a Federal District Court found that Phillip Morris, RJ Reynolds and other leading cigarette manufacturers “spent billions of dollars every year on their marketing activities in order to encourage young people to try and then continue purchasing their cigarette products in order to provide the replacement smokers they need to survive” and that these companies were likely to continue targeting underage smokers<sup>5</sup>;

Whereas more than 80 percent of all adult smokers begin smoking before the age of 18, more than 90 percent do so before leaving their teens, and more than 3.5 million middle and high school students smoke<sup>6</sup>;

Whereas cigars and cigarillos, can be sold in a single “dose;” enjoy a relatively low tax as compared to cigarettes; are available in fruit, candy and alcohol flavors; and are popular among youth<sup>7</sup>;

Whereas research shows that increased cigar prices significantly decreased the probability of male adolescent cigar use and a 10% increase in cigar prices would reduce use by 3.4%<sup>8</sup>;

Whereas 59% of high school smokers in Massachusetts have tried flavored cigarettes or flavored cigars and 25.6% of them are current flavored tobacco product users; 95.1 % of 12 – 17 year old’s who smoked cigars reported smoking cigar brands that were flavored<sup>9</sup>;

Whereas the U.S. Food and Drug Administration and the U.S. Surgeon General have stated that flavored tobacco products are considered to be “starter” products that help establish smoking habits that can lead to long-term addiction<sup>11</sup>;

Whereas data from the National Youth Tobacco Survey indicate that more than two-fifths of U.S. middle and high school smokers report using flavored little cigars or flavored cigarettes<sup>18</sup>;

Entrance to the establishment must be secure so that access to the establishment is restricted to employees and to those 21 years or older. 3. Each applicant who sells tobacco products is required to provide proof of current Tobacco Retailer Licenses issued by the Massachusetts Department of Revenue, when required by state law, before a Tobacco Product Sales Permit can be issued. 9. Maximum Number of Tobacco Product Sales Permits.
  - a. Basic Cap: At any given time, there shall be no more than **[number (XX)]** Tobacco Product Sales Permits issued in **[city/town]**. No permit renewal will be denied based on the requirements of this subsection except any permit holder who has failed to renew his or her permit within thirty (30) days of expiration will be treated as a first-time permit applicant. New applicants for permits who are applying at a time when the maximum number of permits have been issued will be placed on a waiting list and will be eligible to apply for a permit on a "first-come, first-served" basis as issued permits are either not renewed, revoked, or are returned to the Board of Health.
  - b. Advanced Cap: As of the effective date of this Regulation, any permit not renewed either because a retailer no longer sells tobacco products, as defined herein, or because a retailer closes the retail business, shall be returned to the **[city/town]** Board of Health and shall be permanently retired by the Board of Health and the total allowable number of Tobacco Product Sales Permits under paragraph (a) shall be reduced by the number of the retired permits. **[NOTE: If this subsection is included, remove the last sentence of section 9(a) AND add to the end of the first sentence of subsection (a) the following phrase: "...reduced by the number of permits not renewed pursuant to (b)."]**

  - e. A Tobacco Product Sales Permit shall not be issued to any new applicant for a retail location within five hundred (500) feet of a retailer with a valid Tobacco Product Sales Permit as measured by a straight line

from the nearest point of the property line of the retailer with a valid Tobacco Product Sales Permit to the nearest point of the property line of the site of the applicant's business premises.

- f.** Applicants who purchase or acquire an existing business that holds a valid Tobacco Product Sales Permit at the time of the sale or acquisition of said business must apply within sixty (60) days of such sale or acquisition for the permit held by the current permit holder if the Applicant intends to sell tobacco products, as defined herein. **[NOTE #1: This provision should be included regardless of which of the above options are implemented by a board of health. It permits a buyer to “capture” the seller’s permit regardless of the type of capping policy enacted.] [NOTE #2: if section (c) is included, add the following “Such applicant may choose to apply for a Tobacco Product Sales Permit for an Adult-Only Retail Tobacco Store if the current permit holder possessed the same or if a Tobacco Product Sales Permit for an Adult-Only retail store is available pursuant to section (b) above.”]**
